

Assignment 1

Roadmap: Basics → SDLC → STLC → Types of Testing → Test Cases → Bug Reporting

Types of Testing:

Functional: Unit, Integration, System, Smoke, Sanity, Regression

Non-Functional: Performance, Load, Stress, Security, Usability

Key Testing Types:

Unit: Small code testing (by developers)

Smoke: Basic build check

Sanity: Quick check after minor changes

Regression: Check old features after updates

SDLC (Developers):

Requirement → Design → Development → Testing → Deployment → Maintenance

STLC (Testers):

Requirement Analysis → Test Planning → Test Cases → Execution → Bug Reporting → Closure

Bug Life Cycle:

New → Assigned → Open → Fixed → Retest → Verified → Closed (Reopen if needed)

Severity vs Priority:

Severity = Impact of bug

Priority = Urgency to fix

Daily QA Tasks:

Understand requirements, write & execute test cases, report bugs, retest, meetings
